# The People We Serve

Our solutions are centered around tackling the problems prominent in the healthcare system, we are not limited by them. We will continually explore ways to improve and expand our services to provide the best possible healthcare solutions for our users in Nigeria, Africa and beyond.

## *Corporate*

The driving force behind enhanced productivity, reduced absenteeism and a more engaged team that propels your business to new heights of success is a healthy workforce. At Quest Medicare, we firmly believe that the success of any business lies in the strength and health of its people. We recognize that timing, accessibility and personalized care are crucial aspects of the healthcare experience and we are committed to empowering your work community with top-notch healthcare options, tailoring our solutions to address them effectively.

## *Individual*

We strive to provide personalized plans that cater to the unique needs of each individual, going beyond the limitations of standard offerings to enhance the overall healthcare experience. Our approach revolves around implementing innovative and technology-driven systems that ensure prompt care delivery, comprehensive coverage and transparent policies.

## *Group-health*

With profound commitment to building a healthier community, we have specifically designed a healthcare package for groups that lack the financial strength to purchase our corporate health plan. Members of such groups can enjoy healthcare, at a moderate premium

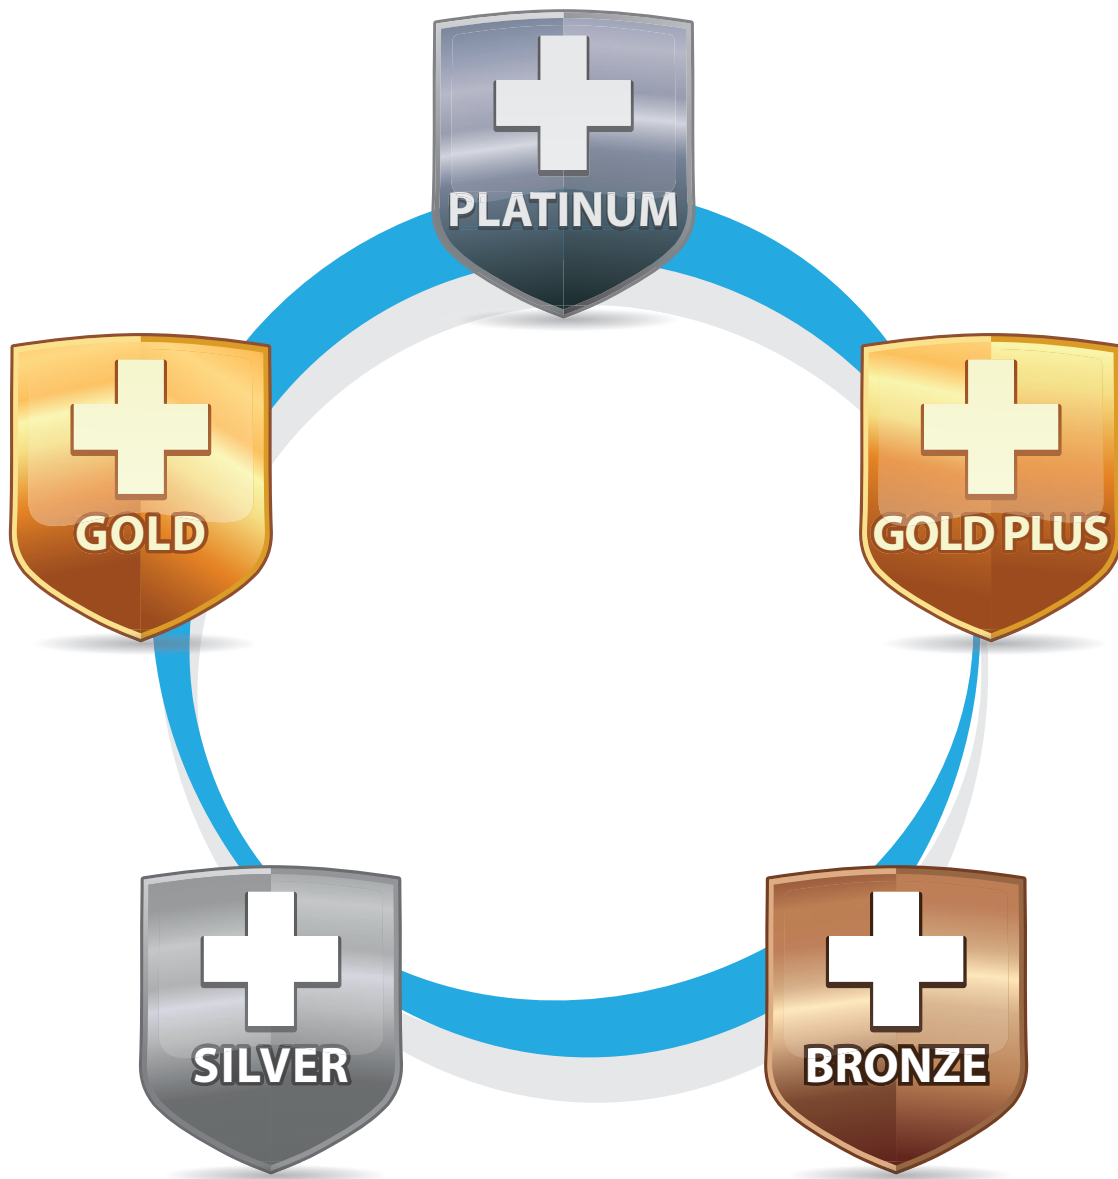

## *Family*

We place premium value on family as a fabric of a healthy society. Quest Medicare is designed to provide guaranteed access to medical care with a cover for families of up to six members at a highly discounted, affordable and flexible payment option. We prioritize your vision to safeguard the health of your family.

# Our Packages

***We are confident that you will discover a plan perfectly suited for your distinctive preferences. Quest Medicare packages are tailored to cater to your unique needs and requirements, no longer will you have to settle for substandard plans that fail to meet your expectations.***

## Let's get you well covered!

Enjoy our managed care with services provided through partnership with a network of over one thousand (1,000) NHIA accredited healthcare providers nationwide (both private and Government).
